Syrian MiG-21 By John Tate. Syria has been in the news lately so here are some shots of a Revell 1/32 scale MiG-21MF I completed late last year, in current Syrian Air Force markings. The inspiration for the build came from a 2016 video clip I saw from the Russian media site RT, which reported on Syrian air operations in the midst of their civil war, using 1970s-era Soviet military equipment.

ABB-Electrical Installation Handbook 6th Edition 2010

Electrical Engineering and Computer Science (EECS) spans a spectrum of topics from (i) materials, devices, circuits, and processors through (ii) control, signal processing, and systems analysis to (iii) software, computation, computer systems, and networking.

Department of Electrical Engineering and Computer Science

The Space Race refers to the 20th-century competition between two Cold War rivals, the Soviet Union (USSR) and the United States (US), for dominance in spaceflight capability. It had its origins in the missile-based nuclear arms race between the two nations that occurred following World War II, aided by captured German missile technology and personnel from the Aggregat program.

Space Race - Wikipedia

Copper, silver, and gold are in group 11 of the periodic table; these three metals have one s-orbital electron on top of a filled d-electron shell and are characterized by high ductility, and electrical and thermal conductivity. The filled d-shells in these elements contribute little to interatomic interactions, which are dominated by the s-electrons through metallic bonds.
