Biomedical Engineering (BME) or Medical Engineering is the application of engineering principles and design concepts to medicine and biology for healthcare purposes (e.g. diagnostic or therapeutic). This field seeks to close the gap between engineering and medicine, combining the design and problem solving skills of engineering with medical biological sciences to advance health care treatment ...

A Bachelor of Science in Biomedical Engineering is a kind of bachelor's degree typically conferred after a four year undergraduate course of study in biomedical engineering (BME). The degree itself is largely equivalent to a bachelor of science and many institutions conferring degrees in the fields of biomedical engineering and bioengineering do not append the field to the degree itself.
