Another great book by Nora Roberts - definitely my favorite romance author. I never tire of reading her books over and over again....something always gets me to pull her books out and start again!!! Birthright gives us yet another great heroine, Callie Dunbrook, an archaeologist, who arrives in a small town to study humans bones that are believed to be buried in what is suspected, sacred ground.

"Birthright" is classic Nora Roberts. It has just the right blend of romance, mystery, science and great characters. It isn't perfect, but it's the best Roberts I've read in a long time, and I would say that it's easily in her top 10 books. The characters in "Birthright" are particularly rich and real.
