Information ethics has been defined as "the branch of ethics that focuses on the relationship between the creation, organization, dissemination, and use of information, and the ethical standards and moral codes governing human conduct in society". The term information ethics was first coined by Robert Hauptman and used in the book Ethical challenges in librarianship.

Utilitarianism is an ethical theory that states that the best action is the one that maximizes utility, which is usually defined as that which produces the greatest well-being of the greatest number of people, and in some cases, sentient animals. Jeremy Bentham, the founder of utilitarianism, described utility as the sum of all pleasure that results from an action, minus the suffering of ...

The early Israelites possessed a strong centralizing force in their monotheistic faith, combined with a stern code of ethics, which set them apart from all their neighbours. The Mosaic tradition of the covenant between Yahweh and Israel, made concrete by the Tabernacle and its ritual, bound the tribes together in a cultic bond resembling the later Greek amphictyonies.
