Unemployment or joblessness is the situation of actively looking for employment, but not being currently employed.. The unemployment rate is a measure of the prevalence of unemployment and it is calculated as a percentage by dividing the number of unemployed individuals by all individuals currently in the labor force. During periods of recession, an economy usually experiences a relatively high ...

Health care prices in the United States describes market and non-market factors that determine pricing, along with possible causes as to why prices are higher than other countries. Compared to other OECD countries, U.S. healthcare costs are one-third higher or more relative to the size of the economy (GDP). According to the CDC, during 2015 health expenditures per-person were nearly \$10,000 on ...
