Logic (from the Ancient Greek:  $\lambda\omicron\gamma\iota\kappa\acute{\alpha}$ , translit. *logiká*, —), is the systematic study of the form of valid inference, and the most general laws of truth. A valid inference is one where there is a specific relation of logical support between the assumptions of the inference and its conclusion. In ordinary discourse, inferences may be signified by words such as therefore, hence, ergo, and so on.

Sections of the First Steps Reading Developmental Continuum have been reproduced with the permission of First Steps.. First Steps provides a framework for linking assessment with teaching and learning. It was researched and developed over five years by the Education Department of Western Australia. First Steps cover the four areas of Oral Language, Reading, Writing and Spelling.
