Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest. As a social science it aims to understand individuals and groups ...

Evolutionary psychology is a theoretical approach in the social and natural sciences that examines psychological structure from a modern evolutionary perspective. It seeks to identify which human psychological traits are evolved adaptations – that is, the functional products of natural selection or sexual selection in human evolution. Adaptationist thinking about physiological mechanisms ...

The Multidimensional Theory of Anxiety. Primarily, the theory is based on the assumption that competitive anxiety is comprised of two distinct parts; a cognitive component, and a somatic component, both having dissimilar effects on performance.

### **Contrasting Concepts of Competitive State-Anxiety in Sport:**

Family life has its own rhythm and while this model has its roots in the idea of a nuclear family, the developmental challenges are shared in families with different structures. This model is based on that of Betty Carter & Monica Goldrick (1999) and Carr (2006)
