Cavernous hemangioma, also called cavernous angioma, cavernoma, or cerebral cavernous malformation (CCM) (when referring to presence in the brain) is a type of blood vessel malformation or hemangioma, where a collection of dilated blood vessels form a [lesion]. Because of this malformation, blood flow through the cavities, or caverns, is slow. Additionally, the cells that form the vessels do ...

Cavernous hemangioma - Wikipedia

“This man needs to see a Doctor!” So wrote an exasperated neurologist after reviewing a patient on the neurosurgical ward. Unfortunately this comment still springs to mind when one considers the clinical management of some cervical spine problems. Magnetic resonance imaging (MRI) scanning has led to a tidal wave of referrals of cervical spine problems to neurosurgeons.

Acute and chronic neck and lower back pain represent major health care problems in the United States. An estimated 75% of all people will experience back pain at some time in their lives. Most patients who present with an acute episode of back pain recover without surgery, while 3-5% of patients presenting with back pain have a herniated disc, and 1-2% have compression of a nerve root.

Klinik smrt je medicinski izraz za prekinitev krvnega obtoka in dihanja. To sta nujna pogoja za ohranjanje življenja. Do tega pride, ko srce preneha biti v rednem ritmu. Takšno stanje imenujemo srčni zastoj. Izraz se včasih uporablja v raziskavah o življenja. Pred odkritjem oživljanja, defibrilacije, adrenalinskih injekcij in drugih zdravil v 20. stoletju, je bila odsotnost krvnega ...

The International Panel on MS Diagnosis presents revised diagnostic criteria for multiple sclerosis (MS). The focus remains on the objective demonstration of dissemination of lesions in both time and space.

Recommended diagnostic criteria for multiple sclerosis

This reference list was compiled by Robert Hare for personal use. Most, but not all, of the articles listed on these pages discuss or evaluate the PCL-R, the PCL:SV, the PCL:YV, and other Hare Scales. Links to available abstracts, and when available, links to the full text on the Journal web sites are provided (search for [full text] on the page below).

Main Psychopathy Reference List - Hare

Le langage humain possède des caractéristiques uniques quand on le compare à d'autres formes de communication animale. Les systèmes de communication utilisés par d'autres animaux comme les abeilles ou les singes sont des systèmes fermés qui se composent d'un nombre fini, généralement très limités, d'idées pouvant être exprimées [23], [24].
