STEM in Early Childhood: How to keep it simple and fun

KISS, a backronym for "keep it simple, stupid", is a design principle noted by the U.S. Navy in 1960. The KISS principle states that most systems work best if they are kept simple rather than made complicated; therefore simplicity should be a key goal in design, and that unnecessary complexity should be avoided. The phrase has been associated with aircraft engineer Kelly Johnson.

Civics derives from the French word civique, meaning citizen, and the Latin, civic, a garland of oak leaves worn about the head as a crown, given in reward of those who saved another citizen from death. Civics are the things people do affecting fellow citizens, especially when that relates to the maintenance of urban development. Civic education is the study of the theoretical, political and ...
