Abstract. In this theoretical paper, motives for CSR are considered. An underlying assumption is that the commercial imperative is not the sole driver of CSR decision-making in private sector companies, but that the formal adoption and implementation of CSR by corporations could be associated with the changing personal values of individual managers.

In the wake of the financial crisis, economic policy-making has been predominantly monetary rather than fiscal. Unorthodox countercyclical policies such as quantitative easing - large-scale purchases of government bonds by central banks - have evolved into enduring features of economic policy frameworks.
