Monopolistic competition is a type of imperfect competition such that many producers sell products that are differentiated from one another (e.g. by branding or quality) and hence are not perfect substitutes. In monopolistic competition, a firm takes the prices charged by its rivals as given and ignores the impact of its own prices on the prices of other firms.

Monopolistic competition - Wikipedia

In economics, a factor market is a market where factors of production are bought and sold, such as the labor market, the physical capital market, the market for raw materials, and the market for management or entrepreneurial resources.. Firms buy productive resources in return for making factor payments at factor prices. The interaction between product and factor markets involves the principle ...
