

### **the residue theorem and pdf**

In complex analysis, a discipline within mathematics, the residue theorem, sometimes called Cauchy's residue theorem, is a powerful tool to evaluate line integrals of analytic functions over closed curves; it can often be used to compute real integrals and infinite series as well. It generalizes the Cauchy integral theorem and Cauchy's integral formula.

### **Residue theorem - Wikipedia**

History, conventions, and elementary facts. Fermat, Euler, Lagrange, Legendre, and other number theorists of the 17th and 18th centuries proved some theorems and made some conjectures about quadratic residues, but the first systematic treatment is § IV of Gauss's *Disquisitiones Arithmeticae* (1801). Article 95 introduces the terminology "quadratic residue" and "quadratic nonresidue", and ...
